

2022 Frankfurter Buchmesse EXCLUSIVE!: Government 2.0 by Joseph Albert Gorski

Critical perspective on a new era of politics and the underlying government monopoly with money and banks at the center will pique the reader's interest

FRANKFURT, GERMANY, October 18, 2022 /EINPresswire.com/ -- Author Joseph Albert Gorski did not hold back in expressing his perception and credible insights of the ills and risks of our current government and monetary institutions, and how all these aspects will possibly affect the future of government ruling in [Government 2.0](#), a book published by [Authors Press](#). This valuable work for libertarians and anarcho-capitalists (also known as voluntaryism) is expected to make a noise at the 2022 Frankfurt Book Fair this October 19–23, 2022.

Besides using credible supporting evidence to support the theories he provided in his books, Gorski also used common sense analysis of both technological advances and people's ever-changing attitudes toward government; demonstrating how banks have always been key to government function to demonstrating an excellent financial model to how it has reached its breaking point for a variety of reasons.

“However, his cure for the problem he explores, and the prognosis he offers for that cure, are speculative at best. Ills such as war and poverty predate bureaucratic government and fiat money. Since they cannot be laid at the feet of Big Government alone, the notion that defanging such governments would create an earthly paradise is highly debatable. Readers will also find the last chapters of the book, where he describes his utopia, as repetitive.”
