

# CAM walker Market Size 2022 Industry Research Report, Share, CAGR of 4.5%, Business Growth and Analysis till 2031

*The CAM walker market is expected to witness significant growth, owing to an increase in the number of people suffering from foot-related issues.*

PORTLAND, OR, US, October 18, 2022 /EINPresswire.com/ -- The [Cam Walker Market Size](#) was valued at \$320.10 million in 2021, and is estimated to reach \$498.9 million by 2031, growing at a CAGR of 4.5% from 2022 to 2031.

The CAM walker industry was moderately impacted by the pandemic, owing to disruption in supply chains and the closure of retail stores. There has been a sharp decline in the global injury rate due to the lockdown situation which has led to a decrease in demand for CAM walkers and other medical footwear in the market. However, demand for health-beneficial footwear products has increased significantly with changing consumer behavior, which is expected to create new market opportunities for engaged stakeholders in the coming years.

The impact of the COVID-19 pandemic on the CAM walker industry was moderate, due to major countries worldwide enacted foot prohibitions and work stoppage orders. So apart from medical supplies and life support products, most industries have been severely impacted, including the CAM walker market analysis. In addition, trade restrictions and travel restrictions hindered the growth of the global market.
