Summary/Conclusion:

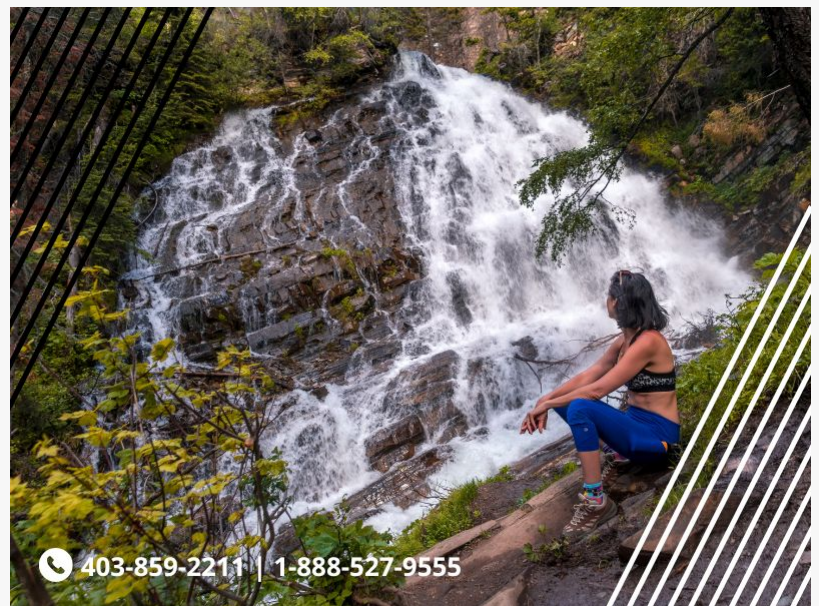

Waterton Lakes National Park is a must-see for anyone who loves nature.

Hikers and tourists can expect crystal-clear lakes, roaring waterfalls, rainbow-coloured streams, vibrant rocks, and mountain vistas. Waterton packs a powerful natural punch into a very compact and accessible space thanks to its outstanding diversity of wildlife and wildflowers and its charming little waterfront town that may be used as a base.

About Waterton Lakes National Park:

Waterton Lakes National Park is a national park located in the southwest corner of Alberta, Canada. It borders Glacier National Park in Montana, United States. Waterton was the fourth Canadian national park, formed in 1895 and named after Waterton Lake, in turn after the Victorian naturalist and conservationist Charles Waterton. Its range is between the Rocky Mountains and prairies. This park contains 505 km² of rugged mountains and wilderness.
