

Dentures Market is Projected to Grow at a 6.5% CAGR by 2028 | Dentsply Sirona, Ivoclar Vivadent Ag, GC America

SEATTLE, UNITED STATES, UNITED STATES, October 19, 2022

/EINPresswire.com/ -- New Research Study ""[Dentures Market](#) 2022 analysis by Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges and Investment Opportunities), Size, Share and Outlook"" has been added to Coherent Market Insights, Inc

Dentures are custom-made appliances that replace lost teeth and restore an individual's look and oral functions. They are classified into two types: complete and partial. After the teeth have been extracted and the gum tissue has healed completely, the conventional implants are personalised. However, an instantaneous denture is implanted as soon as the teeth are extracted to perform fundamental tooth tasks and is then replaced with conventional artificial teeth after a specified period of time. Pink acrylic is used to stimulate gum tissue, and the teeth are composed of plastic or porcelain. Furthermore, the growing prevalence of periodontal disorders and edentulism drives up global demand for these goods.

The global Dentures market generated \$2,623.1 million in 2021 and is projected to reach \$4,069.9 million by 2028, growing at a CAGR of 6.5% over the forecast period (2022 – 2028).

COVID-19 Impact Analysis:

The outbreak of COVID-19 (pandemic) has adversely affected the growth of industrial and/or professional applications. Moreover, the pandemic has severely impacted the global economy and all the industries across the world. Thus, a sharp decline had been witnessed in the adoption of Dentures from various industries, especially in 2020 due to the disruptions in the supply chain. This in turn is expected to have a negative impact on the growth of the market.
