Launching the direct flights between Jeddah and Tashkent comes after flynas signed a memorandum of understanding with the Uzbek Ministry of Transportation last August on the sidelines of the Saudi-Uzbek Business Council meeting in Jeddah. The memorandum strengthens relations in the field of air transport to operate direct flights between Saudi Arabia and Uzbekistan, aiming to facilitate the transportation of pilgrims and Umrah performers and facilitate the movement of citizens from the two countries for investment and tourism purposes.

This comes in light of flynas' expansion strategy and its plan launched at the beginning of the year under the slogan "We Connect the World to the Kingdom," and after the record growth achieved by the company in all its operations. flynas strategy is aligned with the objectives of the civil aviation strategy to reach 330 million passengers and increase the number of international

destinations connected with the Kingdom to more than 250 destinations by 2030.
