

Arizona College of Nursing is Now Enrolling Students in Aurora, Colorado

Arizona College of Nursing announced today the opening of a new campus in Aurora, Colorado.

PHOENIX, ARIZONA, UNITED STATES, October 20, 2022 /EINPresswire.com/ -- [Arizona College of Nursing](#) announced today the opening of a new campus in Aurora, Colorado. This will be the 13th campus location for the college and the first campus to open in the state of

Colorado. The [Aurora campus](#) is located at 3131 South Vaughn Way, Aurora. It will serve students in the Denver-Aurora- Lakewood metropolitan area who are interested in pursuing a Bachelor of Science in Nursing degree.

“

The need for nurses will on increase as Colorado’s population continues to grows.”

Shawn Elliot, DNP, RN, Dean of Nursing

The state of Colorado is facing a nursing shortage and indicators predict the demand for new nurses will continue to increase. It is estimated that the state needs [approximately 3300 new nurses a year](#) to offset the number of nurses retiring and meet the growing population's needs. As many nurses age out of the profession, not enough nursing students are graduating to handle the need for medical care. The demand for more nurses in Colorado is an excellent opportunity for future

Nursing graduates.

Arizona College of Nursing aims to address the demand for qualified Registered Nurses (RN) in Colorado by offering a program that provides students the opportunity to earn a Bachelor of Nursing Degree (BSN) in three years, or less, with qualified transfer credit. Students will experience a mixture of classroom learning and hands-on training through simulation labs and clinical rotations. The college is accepting enrollments for its first cohort with classes beginning in January 2023.

“Nurses are essential to our healthcare system, and the need will only increase as Colorado’s

population grows,” said Shawn Elliot, DNP, RN, Arizona College of Nursing, Aurora Campus, Dean of Nursing. “This is an exciting time to pursue a nursing career in Colorado, and we are thrilled to open our Aurora campus. Our accredited, student-centric, BSN program will prepare students for a fulfilling nursing career.”

Students at the campus will have the opportunity to receive individual attention and form relationships with faculty and staff. The Aurora campus will also offer support services, including tutoring, open lab time, counseling services, career services, and opportunities to join student nursing associations.
