

Drone Defense System Market: Asia-Pacific Region to Surpass at 30.7% CAGR During 2021 to 2030

[244 Pages] Drone defense system market to reach \$16,765.18 million by 2030, use in Military to rise at 29.5% CAGR; Ground Stations to garner at 7% CAGR.

PORTLAND, OREGON, UNITED STATES, October 20, 2022 /EINPresswire.com/ -- According to the report published by Allied Market Research, the global [drone defense system market size](#) generated \$2.13 billion in 2020, and is projected to garner \$16.76 billion by 2030, manifesting a CAGR of 26.6% from 2021 to 2030. The report provides a detailed analysis of changing market dynamics, key segments, major investment pockets, competitive landscape, value chain, and regional scenario.

Increase in drone related incidents across the globe and emergence of various startups offering drone defense systems fuel the global drone defense system market. However, issues associated with the drone defense related technologies and inefficiencies of counter drone technologies restrain the growth. Nevertheless, advancements in technology in tackling drone swarms and surge in defense expenditure create new opportunities in the next few years.

Covid-19 Scenario:

The outbreak of COVID-19 significantly impacted the drone defense system market, due to implementation of several lockdown measures across the globe.

The outbreak furthermore introduced several challenges for the drone defense system industry including disruptions in the supply chain of raw materials, logistics challenges, and others.

The drone defense technology manufacturers, on the other hand, had to reduce expansion and R&D investments to survive the decline in revenue and operating performance of the defense industry.

Several nations are now focusing on vaccination drives. Also, the restriction are getting loosened off in various regions. And, therefore, the industry is expected to recoup soon.

The global market is segmented on the basis of end user, technology, application, and region. By end user, the military segment accounted for the highest share, holding around two-fifths of the total market share in 2020, and is projected to maintain its leadership status throughout the forecast period. In addition, the same segment is expected to witness the fastest CAGR of 29.5% from 2021 to 2030.

By technology, the countermeasure systems segment accounted for the largest market share in 2020, contributing to nearly two-thirds of the global drone defense system market, and is projected to maintain its dominant share in terms of revenue during the forecast period. Furthermore, the segment is estimated to witness the fastest CAGR of 28.6% from 2021 to 2030.

About Us

Allied Market Research (AMR) is a full-service market research and business-consulting wing of Allied Analytics LLP based in Portland, Oregon. Allied Market Research provides global enterprises as well as medium and small businesses with unmatched quality of "Market Research Reports" and "Business Intelligence Solutions." AMR has a targeted view to provide business insights and consulting to assist its clients to make strategic business decisions and achieve sustainable growth in their respective market domain.

Pawan Kumar, the CEO of Allied Market Research, is leading the organization toward providing high-quality data and insights. We are in professional corporate relations with various companies and this helps us in digging out market data that helps us generate accurate research data tables and confirms utmost accuracy in our market forecasting. Each and every data presented in the reports published by us is extracted through primary interviews with top officials from leading companies of domain concerned. Our secondary data procurement methodology includes deep online and offline research and discussion with knowledgeable professionals and analysts in the industry.
