Key Trends In The Filgrastim Biosimilars Market

Filgrastim biosimilars market trends include companies are increasing their product innovation through strategic collaborations. To sustain in the increasingly competitive market, companies are developing innovative products as well as sharing skills and expertise with other companies. While companies have long collaborated as well as academic and research institutions in this market by way of partnerships or out-licensing deals, this trend has been increasing over recent years. For instance, in April 2020, Biocon, an India-based biopharmaceutical company partnered with Mylan, a US-based generic and specialty pharmaceuticals company to introduce Fulphila, biosimilar pegfilgrastim in Australia. Fulphila has been licensed by the Therapeutic Goods Administration for the therapy of oncology patients who have had chemotherapy to shorten the length of acute neutropenia and hence the risk of infection, as evidenced by febrile neutropenia.

[Overview Of The Filgrastim Biosimilars Market](#)

The filgrastim biosimilars market consists of sales of filgrastim biosimilars and related services by entities (organizations, sole traders, and partnerships) that manufacture filgrastim biosimilars. Filgrastim biosimilar treatment is used to stimulate the bone marrow to produce
