market size is predicted to grow from \$9.10 billion in 2021 to \$10.48 billion in 2022 at a compound annual growth rate (CAGR) of 15.20%. The growth in the market is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The hydrocolloid market is expected to reach \$16.45 billion in 2026 at a CAGR of 11.90%. The increase in nutritionally aware consumers is expected to propel the growth of the hydrocolloids market during the forecast period.
