

Global Food Acidulants Market Growth Trajectory

The Business Research Company's Food Acidulants Global Market Report 2022 – Market Size, Trends, And Global Forecast 2022-2026

LONDON, GREATER LONDON, UK,
October 20, 2022 /EINPresswire.com/ --
As per The Business Research Company's "[Food Acidulants Global Market Report 2022](#)", the food

acidulants market size is predicted to grow from \$4.86 billion in 2021 to \$5.44 billion in 2022 at a compound annual growth rate (CAGR) of 11.80%. The growth in the food acidulants market is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The food acidulants market is expected to reach \$7.29 billion in 2026 at a CAGR of 7.60%. Increasing consumption of processed meat is expected to propel the food acidulants market growth going forward.

[Key Trends In The Food Acidulants Market](#)

The rising consumer inclination towards various juices and liquid food is projected to fuel the growth of the food acidulants market in the coming years. Food-grade acidulants are used in juices and beverages to give them a tasty twist. Acidulants used in juices and beverages include fumaric acid, malic acid, and sugar alternatives. For example, according to the Hindustan Times, in the year 2020, 100 billion liters of liquid foods were consumed in India, less than 50% of that is packaged. Hence, rising consumer inclination towards the various juices and liquid food is driving the growth of the food acidulants market.

Overview Of The Food Acidulants Market

The food acidulants market report consists of sales of food acidulant products by entities (organizations, sole traders, and partnerships) that are used as additives that contribute to
