

Global Eco-Friendly Food Packaging Market Drivers, Trends And Restraints For 2022-2031

The Business Research Company's Eco-Friendly Food Packaging Global Market Report 2022: Market Size, Trends, And Forecast To 2026

LONDON, GREATER LONDON, UK,
October 20, 2022 /EINPresswire.com/ --
As per The Business Research Company's "Eco-Friendly Food Packaging Global Market Report 2022", the [eco-friendly food packaging market](#)

[size](#) is expected to grow from \$196.26 billion in 2021 to \$211.56 billion in 2022 at a compound annual growth rate (CAGR) of 7.8%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, a surge in commodity prices, and supply chain disruptions, affecting many markets across the globe. The market is expected to reach \$280.10 billion in 2026 at a CAGR of 7.3%. The growing consumer awareness about the drawbacks of using single-use and non-degradable plastic products for food packaging is driving the growth of the eco-friendly food packaging market.

Key Trends In The Eco-Friendly Food Packaging Market

Technological advancement is a key trend gaining popularity in the eco-friendly food packaging market. Major market players are concentrating their efforts on creating innovative technologies for migrating to environmentally friendly food packaging solutions to reduce environmental impact and keep plastic out of landfills and seas.

[Overview Of The Eco-Friendly Food Packaging Market](#)

The eco-friendly food packaging market consists of sales of eco-friendly food packaging products by entities (organizations, sole traders, and partnerships) that are made out of recycled materials. Eco-friendly packaging is defined as any packaging which is easy to recycle, reuse, compostable, or biodegradable, as well as safe for people and the environment. It involves the
