

Field Service Management Global Market Estimated To Grow At 16% Rate

The Business Research Company's Field Service Management Global Market Report 2022: Market Size, Trends, And Forecast To 2026

LONDON, GREATER LONDON, UK,
October 20, 2022 /EINPresswire.com/ --
As per The Business Research Company's "Field Service Management Global Market Report 2022", the [field](#)

[service management market size](#) is expected to grow from \$3.02 billion in 2021 to \$3.64 billion in 2022 at a compound annual growth rate (CAGR) of 20.6%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, a surge in commodity prices, and supply chain disruptions, affecting many markets across the globe. The field service management market is expected to reach \$6.51 billion in 2026 at a CAGR of 15.7%. The increasing adoption of automation and digitalization is expected to propel the growth of the field service management market in the forecast period.

Key Trends In The Field Service Management Market

The increasing availability of SaaS solutions and value-added features is a key trend gaining popularity in the field service management market. Software as a service (SaaS) is an abbreviation that refers to a software distribution model in which a cloud provider hosts applications for simple access by end-users. The advantages of SaaS solutions are ease of access, minimal setup time, and customizability based on the requirements. SaaS solutions are widely incorporated in field service management to effectively track and manage resources.

[Overview Of The Field Service Management Market](#)

The field service management market consists of the sales of field service management solutions and services by entities (organizations, sole traders, and partnerships) that refers to the practice of managing and optimizing an organization's people, equipment, service, and
