

Insights Into The Global Printer Market 2022-2031 Forecast Period

The Business Research Company's Printer Global Market Report 2022: Market Size, Trends And Forecast To 2026

LONDON, GREATER LONDON, UK,
October 21, 2022 /EINPresswire.com/ --
As per The Business Research Company's "Printer Global Market Report 2022", the printer market grew from \$6.8 billion in 2021 to \$7.75

billion in 2022 at a compound annual growth rate (CAGR) of 13.9%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, surge in commodity prices, and supply chain disruptions, effecting many markets across the globe. The printer market is expected to grow to \$11.2 billion in 2026 at a CAGR of 9.6%. The rising demand for 3D printers is anticipated to propel the growth of the printer market over the forecast period.

Key Trends In The Printer Market

Advancing technologies are gaining popularity in the printer market. Major companies operating in the printing industry are focusing on developing advanced technology solutions for printers.

Overview Of The Printer Market

The printer market consists of sales of printers by entities (organizations, sole traders and partnerships) that provide printers, which are output devices that can be connected to computers to print paper documents. This includes text documents, images, or a combination of both. Only goods and services traded between entities or sold to end consumers are included.
