

# WORKPRO TOOLS® Looking To Make a Strong Comeback At Homestead-Miami

TAMPA, FL, USA, October 21, 2022 /EINPresswire.com/ -- WorkPro Tools is no stranger to adversity. In fact, they are built for it. For the past 25 years, they have been tirelessly dedicated to instilling a “Can Do” attitude in their customers by providing them with high quality, affordable tools to help them tackle any job. So after their Drive For The Cure 250 campaign at Charlotte 2 weeks ago was challenged early on by a spin out that led to a flat tire at the end of Stage 1, there was no sign of panic. Instead, JJ Yeley and the WorkPro Tools No. 66 was able to battle back from P37 and a lap down to finish P19. Now, they look to take this attitude of perseverance to the [Contender Boats 300](#) at Homestead-Miami.

WorkPro Tools knows more than anyone that the process matters- meaning that the quality of the final product is dependent upon teamwork and perseverance along the way. This is evident in the 5 global Research and Development bases that consist of over 200 engineers who specialize in different product categories. With strong independent R&D and innovation capabilities, WorkPro is able to research and develop more than 400 new products annually, and own more than 700 international patents. The focus on having such an extensive R&D process can be attributed to their philosophy that is rooted in the idea that their customer’s success is dependent upon innovative and high quality products. This philosophy results in their customers being able to not only achieve their goals, but exceed them and “build a better project”.

This weekend at Homestead-Miami, [WORKPRO® Tools](#) will look to JJ Yeley of MBM Motorsports for redemption in the NASCAR Xfinity Series Contender Boats 300 on Saturday, May 22nd at 4:30PM. So when you see the red, white, and pink WorkPro Tools No. 66 racing down the track this weekend, know that you are supporting a team that is dedicated to the details of the process

and doing whatever it takes to deliver the best product, on and off the track.
