

ANY.RUN Takes Part in GITEX Global 2022

DUBAI, UNITED ARAB EMIRATES, October 25, 2022 /EINPresswire.com/ -- On 10-14 October, Dubai World Trade Centre was a meeting point for the largest & most inclusive tech show in 2022 with more than 138K visitors – [GITEX GLOBAL](#). ANY.RUN was excited to participate in such an event.

The grand technology exhibition was an excellent opportunity for [ANY.RUN malware sandbox](#) to build new partnerships and meet our clients in person. Being able to network with so many cybersecurity, IT, tech, and business leaders who are shaping the future of innovation was a memorable experience.

The most impressive part is that we collaborated with our partners – MEA Tec. This cooperative effort brought more than 700 attendees to the booth.

In the rapidly growing and evolving global digital economy, GITEX Global brings together and unites a variety of communities under one roof. And ANY.RUN was glad to be one of more than 5K exhibitors distributed across 26 exhibition halls with a total area of 2m square feet.

More details in [Blog ANY.RUN](#).

ANY.RUN is a cloud-based sandbox for detection, monitoring, and analyzing cyber threats. The unique feature of our innovative platform is interactive analysis. Researchers can control the process, influence the virtual machine in real-time, make changes right after getting the updates from the sample and operate in teams or individually.
