"At a certain point, I got fed up being told that what I was experiencing was not real or just part of being a woman. And the only "solutions" were to add more chemicals to my body. I knew in my heart that there had to be a better way, and I allowed the Universe to work through me to create it," said Marcela Segal, founder, and CEO of Goddess Well. "I healed my body in a powerful, real way and feel better at 50 than I did at 20. I knew then my calling was to be in service to the Divine Feminine and help others feel this empowered."

In addition, Goddess Wells plans to hold space for women looking to break free of taboos to have honest, authentic conversations to find real, natural solutions for self-healing. Goddess Well is an integral part of the conversation. A conduit to the feminine rising. Goddess Well exists to create the highest-quality CBD and plant medicine, education, and community for women as they reclaim their health and connect with their best selves.
