

# Global Collaboration Software Market Growth Trajectory

*The Business Research Company's  
Collaboration Software Global Market  
Report 2022: Market Size, Trends And  
Forecast To 2026*

LONDON, GREATER LONDON, UK,  
October 26, 2022 /EINPresswire.com/ --

As per The Business Research  
Company's "Collaboration Software  
Global Market Report 2022", the

collaboration software market size is predicted to reach a value of \$12.5 billion in 2021 to \$13.03 billion in 2022 at a compound annual growth rate (CAGR) of 4.30%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, surge in commodity prices, and supply chain disruptions, effecting many markets across the globe. The collaboration software market is expected to grow to \$15.25 billion in 2026 at a CAGR of 4.0%. Increasing remote work culture is a major driver for the growth of the collaboration software market.

## Key Trends In The Collaboration Software Market

Companies in the collaboration software market are increasingly investing in research and development to cater to the needs of the users and enhance coordination amongst the teams. Microsoft, for example, released a free version of the Microsoft Teams software. This software allowed customers to have joint meetings, calls, and talks, along with company security, enforcement, and extra storage and it can be used for the whole organisation, regardless of size. Such developments are likely to strengthen market competition among players and consequently increase forecast-period growth in the overall team collaboration software market.

## Overview Of The Collaboration Software Market

The collaboration software market report consists of sales of team collaboration software and its

Market Size, Trends And Forecast To 2026

related services. The collaboration software aims to facilitate communication between the team members by providing a convenient and informal space to the user, perform group talks, and share relevant information. Team collaboration software is a platform to facilitate quick communication, address questions and queries, access shared knowledge & files, and check tasks. It offers various features such as task management, file sharing, messaging, document collaboration, VoIP and video conferencing, task management, calendar, integration, and search.
