

U.S. Speech Therapy Market: How the Market will Perform Based on Market Size, Share, Supply Volume and Major Regions.

The demand of speech therapy has been dynamically increasing in the U.S., owing to increasing prevalence of language and speech disorders.

SEATTLE, WASHINGTON, UNITED STATES, October 26, 2022 /EINPresswire.com/ -- Coherent Market Insights, the premium market research firm, has released a new market study titled "[U.S. Speech Therapy Market](#)" Share, Size, Trends, Industry Analysis Report 2022 - 2028." The report provides new perspectives on opportunities and challenges in a post-COVID-19 marketplace that has been significantly transformed.

Speech therapy is the treatment of cognitive-linguistic skills, voice production, swallowing function, speech/language production, and/or general communication abilities that have been impaired as a result of a disease, injury, developmental delay, or surgical procedure.

The purpose of speech therapy is to provide necessary services such as speech therapy for the diagnosis and treatment of disabilities or changes in speech/language production, general communication deficits, impairments, voice production, functional limitations, swallowing function, cognitive-linguistic skills, and compensatory communication abilities. Speech therapy is medically necessary to help restore functional speech, swallowing and other functions following the onset of their impairment

The U.S. speech therapy market is estimated to be valued at US\$ 4.35 Bn in 2021, and is expected to exhibit a CAGR of 6.4% over the forecast period (2022-2028).
