LONDON, GREATER LONDON, UK,
October 27, 2022 /EINPresswire.com/ --
As per The Business Research Company's "Enterprise File Synchronization And Sharing (EFSS)

Global Market Report 2022", the enterprise file synchronization and sharing (efss) market size is predicted to reach a value of \$4.65 billion in 2020 to \$6.01 billion in 2021 at a compound annual growth rate (CAGR) of 29.30%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, surge in commodity prices, and supply chain disruptions, affecting many markets across the globe. The enterprise file synchronization and sharing (EFSS) market growth is expected to reach \$15.94 billion in 2025 at a CAGR of 27.60%. The increasing data security concerns are expected to drive the growth of the enterprise file synchronization and sharing market in the coming years.

[Overview Of The Enterprise File Synchronization And Sharing \(EFSS\) Market](#)

The enterprise file synchronization and sharing (EFSS) market consists of sales of enterprise file synchronization and sharing services and solutions by entities (organizations, sole traders, and partnerships) that improve content management, collaboration, and secure file sharing among employees. Enterprise file sync-and-share is a service that enables users to preserve files in the cloud or on-premises storage and subsequently access them on their desktops and mobile devices. They use file synchronization, or copying, to save files in an authorized data repository, which can subsequently be accessed remotely by employees using EFSS-compatible PCs, tablets, and smartphones.
