

Aircraft Seat Material Market Likely to Surpass US\$150.1 million in Revenue by 2026

*Aircraft Seat Material Market – Forecast
(2021-2026) by IndustryARC*

HYDERABAD, TELANGANA, INDIA, October 27, 2022 /EINPresswire.com/ -- IndustryARC, in its latest report, predicts that [Aircraft Seat Material Market](#) size is forecast to reach US\$150.1 million by 2026, at a CAGR of 3.5 % during 2021-2026. The components used to build the seating arrangement for comfortable passenger accommodation on a flight are known as aircraft seating materials.

Airline seats are intended to be lightweight, yet powerful and fire-resistant at the same time, considering passenger convenience as well. With the growing number of carriers and their ongoing efforts to update and expand their fleet, the aircraft seating material market is experiencing healthy growth. The report offers a complete analysis of the market, its major segments, growth factors, trends, drivers and challengers, key players and more.

Segmental Analysis:

- The structure segment held the largest share in the aircraft seat material market in 2020 and is growing at a CAGR of 3.9% by revenue during 2021-2026. Aerospace structures are often made up of thin-walled structures like plates and shells, which can become dynamically unstable when subjected to high-speed airflow on the outer surface and at a certain critical speed.
- The business class segment held the second largest share in the aircraft seat material market in 2020 and is growing at a CAGR of 4.2% by revenue during 2021-2026. Business-class continues to be one of the most profitable aviation industries. Airlines are increasingly pushing luxury travelers, and many business-class fares are now merely so great that first-class companies are completely withdrawing them.
- The single aisle aircraft segment held the largest share in the aircraft seat material market in 2020 and is growing at a CAGR of 3.5% by revenue during 2021-2026. Narrow-body also known as single aisle has 3-4 meters of the fuselage and a seating capacity of 125 to 175 passengers.

Competitive Landscape:

The top 5 players in the Aircraft Seat Material Industry are -

1. Haeco Americas (Swire Pacific Limited)
2. Safran S.A.
3. Jamco Aircraft Interiors Company
4. Recaro Aircraft Seating
5. Singapore Technologies Aerospace Ltd.
