Key Takeaways:

This IndustryARC report on the Mefloquine market highlights the following areas -

1. Geographically, North America (Global Mefloquine market share) accounted for the highest revenue share in 2021 and it is poised to dominate the market over the period 2022-2027 owing to the existence of key players like Toronto Research Chemicals and the application of the recommended Mefloquine Dose to treat malaria in the North American region.
2. Global Mefloquine Market growth is being driven by the increasing predominance of malaria

in regions like Africa and the application of medication with the mefloquine brand name. However, certain people consuming mefloquine have had sudden severe psychiatric or nerve issues, with mefloquine side effects being permanent and this is one of the major factors hampering the growth of the Global Mefloquine Market.

3. Global Mefloquine Market Detailed Analysis of the Strengths, Weaknesses and Opportunities of the prominent players operating in the market will be provided in the Global Mefloquine Market report.
