The global antioxidants market size was valued at \$3,437.3 million in 2020, and is projected to reach \$7,376.4 million by 2031, registering a CAGR of 6.9% from 2022 to 2031. The synthetic antioxidants segment dominated the market in 2020, with more than half share, in terms of revenue.

Antioxidants are the vital ingredients that provide longer shelf life to food products and are used as vitamin supplements in pharmaceutical industries. The global antioxidants market is anticipated to witness significant growth during the forecast period owing to decrease in antioxidant costs, increase in investment & approval of antioxidants by many regulatory authorities, and increase in demand for antioxidants in food & beverage industry. Developed economies are trending toward natural antioxidants such as rosemary extract, creating new growth opportunities for the market. On the other hand, Asia-Pacific is expected to show growth

in the demand for synthetic antioxidants during the forecast period.

Increase in the health problems and premature aging problems will have positive impact on the market of natural antioxidants. Germany is one of the largest contributors in the antioxidants market. Asia-Pacific regions are expected to project a CAGR of 6.4% in synthetic antioxidants owing to huge market for suppliers.
