The growth of the Europe commercial refrigeration industry is driven by increase in demand for frozen & chilled products among consumers due to changes in lifestyle and emergence of modern trades. Moreover, development of the organized retail sector coupled with

increase in number of hypermarkets and supermarkets boosts the Europe commercial refrigeration market growth.

Europe commercial refrigeration market trends such as advancements in commercial refrigerators, integration of artificial intelligence (AI) coupled with rise in automation of equipment are anticipated to provide potential Europe commercial refrigeration market opportunities. Thus, Europe commercial refrigeration market size is expected to expand over the forecast period owing to the new offerings and development in existing product line by the key manufacturers.

Commercial refrigeration equipment are devices used in the commercial sector to preserve food items and beverages such as vegetables, fruits, meat, beer, and other similar products by maintaining a specific temperature. This helps increase the shelf life of the product making it suitable for purchase for a longer duration. Most commercial refrigeration systems are designed to reduce temperature over a period, while there are some refrigeration equipment that are specifically designed to reduce the temperature of food from around 90°C to as low as 30°C, in short time. The quick change in temperature helps constrain bacterial growth and maintain the freshness of food items for prolonged period.

The Covid-19 pandemic has a vital impact on the growth of the Europe Commercial Refrigeration Market and altered several market scenarios. The lockdown across various countries and ban on international travel has disrupted the supply chain and revenue chain. The report includes a thorough analysis of the Covid-19 pandemic on the growth of the Europe Commercial Refrigeration Market.

The market is segmented into product, end user, and country. Depending on type, the chest refrigeration segment was the highest contributor to the Europe commercial refrigeration market share. By end user, the supermarket/hypermarket segment accounted for a maximum share in the regional market in 2019, and is expected to remain dominant during the Europe commercial refrigeration forecast period. However, the retail pharmacies segment is expected to experience rapid growth with a CAGR of 5.8% from 2021 to 2028.

Country wise, the market is analyzed across Germany, France, UK, Italy, Spain, Netherlands, Poland, Russia, Denmark, and Rest of Europe.

Some of the key players profiled in the Europe commercial refrigeration market analysis include Bitzer GmbH, De Rigo Refrigeration S.r.l., Freor Lt Uab, FRIGOBLOCK GmbH, INTARCON, Kelvion Phe GmbH, Pfannenbergl GmbH, SCM FRIGO S.P.A., TEXA Industries, and Walter Roller GmbH & Co.
