

Menopause Drugs Market by 2028 | Demand, Trends, Opportunities, Risks Factors Analysis, Competitive Situation

Key players profiled in the report include Novo Nordisk, Pfizer, Allergan, Eli Lilly and Company, Emcure Pharmaceuticals, Novartis, Cipla, Teva Pharmaceuticals

ISLE OF MAN, October 31, 2022
/EINPresswire.com/ -- [Menopause Drugs Market](#) Size Analysis:

The menopause drugs market is expected to grow at a CAGR of over XX% during the period 2018–2027.

Menopause is the permanent cessation of menstruation and ovulation due to the natural depletion of ovarian follicles. It typically occurs between the ages of 45 and 55 but can occur earlier or later in life. The average age of menopause in the United States is 51 years old.

There are a variety of treatments available for menopausal symptoms, including hormone therapy, non-hormonal therapy, and alternative therapies. Hormone therapy is the most effective treatment for hot flashes and other vasomotor symptoms associated with menopause. Non-hormonal therapies, such as selective serotonin reuptake inhibitors (SSRIs), can also be effective for hot flashes and other vasomotor symptoms. Alternative therapies, such as acupuncture, relaxation techniques, and diet modification, may be helpful for some women.

COVID-19 Scenario:

COVID-19 has had a significant impact on the menopause drugs market. The pandemic has resulted in a decrease in the demand for menopause drugs, as many women have postponed or

cancelled their appointments with healthcare providers. This has led to a decrease in sales of menopause drugs. In addition, the pandemic has also resulted in the closure of many clinical trials for new menopause drugs. This has delays in the launch of new menopause drugs and has put pressure on existing players in the market to maintain their share.

Oral,
Parenteral,
Transdermal,

Vaginal,
others

On the basis of end user
Hospitals
Clinics
Home healthcare,
Others

On the basis of distribution channel,
Hospital pharmacy,
Retail pharmacy,
Online pharmacy

Menopause Drugs Market Drivers and Restraints:

The increase in the vulnerable ageing population of menopause women, as well as the increased demand for novel therapies globally, is expected to accelerate market growth from 2022 to 2028. Furthermore, the increase in strategic collaboration and licencing agreements between companies will pave the way for market growth. Increased demand from emerging economies, as well as technological advancements and modernization in the healthcare sector, are expected to boost overall market growth during the forecast period. However, the lack of knowledge about menopause in some developing countries is expected to slow market growth. On the other hand, the patent expiration of many companies and the introduction of generic drugs of branded versions both impede market growth.

Regional Shares:

On the basis of geography, North America held the leading share in the global menopause drugs market in 2018 and is expected to maintain its dominance over the forecast period. This can be attributed to large number of menopausal women in this region and rising awareness regarding management of menopause symptoms. Besides North America, Asia Pacific is also anticipated to witness significant growth over the forecast period owing to growing geriatric population and changing lifestyle in this region.

Major Players Profiled in the Market Report:

The report provides profiles of the leading companies operating in the global Menopause Drugs market. Key players profiled in the report include

- Laboratorios Bagó S.A.

- Química Montpellier S.A.
- GADOR S.A.
- Laboratorio Elea Phoenix S.A.
- ROEMMERS SAICF
- ACHÉ LABORATÓRIOS FARMACÊUTICOS S.A.,
- Abbott
- Laboratorios Bernabó
- GlaxoSmithKline plc
- TEMIS LOSTALO
- Novartis AG
- Novo Nordisk A/S
- Pfizer Inc.
- Allergan
- Teva Pharmaceutical Industries Ltd.
- Bayer AG

Key Questions Answered In This Report

- Covid 19 impact analysis on global Menopause Drugs industry.
- What are the current market trends and dynamics in the Menopause Drugs market and valuable opportunities for emerging players?
- What is driving Menopause Drugs market?
- What are the key challenges to market growth?
- Which segment accounts for the fastest CAGR during the forecast period?
- Which product type segment holds a larger market share and why?
- Are low and middle-income economies investing in the Menopause Drugs market?
- Key growth pockets on the basis of regions, types, applications, and end-users
- What is the market trend and dynamics in emerging markets such as Asia pacific, Latin America, and Middle East & Africa?

Unique data points of this report

- Statistics on Menopause Drugs and spending worldwide
- Recent trends across different regions in terms of adoption of Menopause Drugs across industries
- Notable developments going on in the industry
- Attractive investment proposition for segments as well as geography
- Comparative scenario for all the segments for years 2018 (actual) and 2028 (forecast)

Table of Content:

1 Introduction

1.1 Objectives Of The Study

1.2 Market Definition

1.3 Overview Of Menopause Drugs market

1.4 Currency And Pricing

1.5 Limitations

1.6 Markets Covered

2 Menopause Drugs market: Segmentation

2.1 Markets Covered

2.2 Country Scope

2.3 Years Considered For The Study

2.4 Tripod Data Validation Model

2.5 Primary Interviews With Key Opinion Leaders

2.6 Multivariate Modelling

2.7 Cause Segment Lifeline Curve

2.8 Market Position Grid

2.9 Vendor Share Analysis
