Augmented Reality Devices Global Market Report 2022 – Market Size, Trends, And Global Forecast 2022-2026

As per The Business Research Company's "Augmented Reality Devices Global Market Report 2022", the augmented reality devices market size is predicted to reach a value of \$7.09 billion in 2021 to \$7.59 billion in 2022 at a compound annual growth rate (CAGR) of 7.10%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, surge in commodity prices, and supply chain disruptions, effecting many markets across the globe. The augmented reality devices market share is expected to grow to \$9.92 billion in 2026 at a CAGR of 6.90%. The increasing use of augmented reality (AR) devices in the medical field is driving the augmented reality devices market growth.

## [Key Trends In The Augmented Reality Devices Market](#)

Augmented reality devices manufacturers are increasingly investing in the integration of augmented Reality (AR) and virtual reality (VR) technologies. Combination of virtual and augmented reality enables users to both see and interact with digital content at the same time. For instance, Spatial, an augmented reality company has developed a platform to enable interactive conference call, where the users can interact with their surroundings without any physical presence. With the combination of AR and VR technology, the users of the application can also witness pin boards and whiteboards.

## [Overview Of The Augmented Reality Devices Market](#)

The augmented reality devices market consists of sales of augmented reality devices and related services. Augmented reality devices provide an interactive experience of real-world environment by integrating digital visual content and audios into the real-world environment. Augmented reality devices include head-up displays, holographic displays, smart glasses and others.

Augmented Reality Devices Global Market Report 2022 from TBRC covers the following information:

### Market Size Data

- Forecast period: Historical and Future
- By region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
- By countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

### Market Segmentation

- By Type: Head-Mounted Display (HMD), Head-Up Display (HUD)
- By Application: Consumer, Commercial, Enterprise, Healthcare, Aerospace & Defense, Energy, Automotive
- By Component: Hardware, Software
- By Geography: The global augmented reality devices market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, Asia-Pacific holds the largest share in the market.

Major market players such as Sony, Oculus, Samsung Electronics, HTC, Google, PTC, Microsoft, Wikitude, DAQR, and Blippar.

Trends, opportunities, strategies and so much more.

Augmented Reality Devices Global Market Report 2022 is one of The Business Research Company's comprehensive reports that provides a augmented reality devices global market outlook and an overview of augmented reality devices global market. The market report analyzes augmented reality devices global market size, augmented reality devices global market growth drivers, augmented reality devices global market segments, augmented reality devices global market major players, augmented reality devices global market growth across geographies, and augmented reality devices global market competitors' revenues and market positioning. The augmented reality devices global market report enables you to gain insights on opportunities and strategies, as well as identify countries and segments with the highest growth potential.
