Why Swiss Security Solutions decided to make a specialized Fraud Investigation & Scam Investigation website?

Firstly, Fraud Investigation and Scam Investigation are mostly Investment Fraud Investigation, Broker Fraud Investigation or Crypto Fraud Investigation. Those investigations are special and complex investigative services and solutions which are very different from other investigation services, by doing, finding the facts, investigator specialization, reporting, and criminals and criminal groups which are mostly international. These services and solutions should have a special place on the World Wide Web.

What can Investor, Investor Community or Victim of Fraud/Scam now do?

Check if something might be a Scam or Fraud in Switzerland or Liechtenstein or Globally. Just order Due Diligence, Company Review or Address Investigation. You may also order an Asset Recovery Service or Surveillance Operation. Neither the federal government nor the cantons have the authority to intervene against scams / frauds perpetrated exclusively in Switzerland. Anyone whose economic interests are threatened or damaged by these practices can lodge a complaint with the competent prosecuting authorities or bring a civil suit to the competent civil court judge. You need to prepare the documentation and evidences to fight against the scams / fraudsters or your complaint will be put in suspension until new evidences come.
