Construction Toys Global Market Report 2022 –
Market Size, Trends, And Global Forecast 2022-2026

As per The Business Research Company's "Construction Toys Global Market Report 2022", the [construction toys market](#) is expected to grow from \$8.94 billion in 2020 to \$9.04 billion in 2021 at a compound annual growth rate (CAGR) of 1.1%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, surge in commodity prices, and supply chain disruptions, effecting many markets across the globe. The construction toys market is expected to reach \$11.52 billion in 2025 at a CAGR of 6.3%. A rise in disposable income is expected to propel the growth of the construction toys market in the forecast period.

Key Trends In The Construction Toys Market

The introduction of eco-friendly construction toys is the key trend gaining popularity in the construction toys market. Key players are coming up with eco-friendly and sustainable products

as concerns over the safety of the raw materials used in construction toys have grown and to maintain a competitive edge over the other players.

Overview Of The Construction Toys Market

The construction toys market consists of sales of construction toys by entities (organizations, sole traders, and partnerships) that are engaged in the production of construction toys. Construction toys are made up of a set of basic components that are supplied and configured to enable children to construct structures of their creation that can then be disassembled and redesigned into something new.
