*The Business Research
Company*

market is expected to grow from \$3.11 billion in 2020 to \$3.34 billion in 2021 at a compound annual growth rate (CAGR) of 7.43%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, a surge in commodity prices, and supply chain disruptions, affecting many markets across the globe. The webbing market is expected to reach \$4.57 billion in 2025 at a CAGR of 8.15%. An increase in demand for automobiles is contributing to the growth of the webbing market.

Key Trends In The Webbing Market

The launch of advanced textile products that increase functionality and productivity is a key trend in the webbing market.

Overview Of The Webbing Market

The webbing market consists of sales of webbing products by entities (organizations, sole

traders, and partnerships) that are engaged in webbing products to be used in belts, straps, seat belts, and airbags. Webbing is a strong fabric that is woven as a flat strip with different sizes and fibers and is often used as a replacement for rope. It is commonly used in furniture manufacturing, military apparel, automobile safety, parachuting, and other fields.
