NEW YORK, NEW YORK, UNITED STATES, November 1, 2022 /EINPresswire.com/ -- [USGrants.org](https://www.usgrants.org) is pleased to re-open its administrator dashboard to [grant writers](#) and grant writing consultants looking for quality leads to grow and expand their businesses.

USGrants.org is an established portal for government grants. "Thousands of people come to our website for their funding needs every single day. When a user creates a grant proposal, pays and files for submission, we pass the information on to funding administrators, grant writers, and government loan issuers," said Aaron, "Therefore, the leads we provide to our partners are of the highest quality, as people are committed to their submissions."

Each lead comes with extensive information such as:

1. Contact information
2. Business information
3. Income explanation
4. Expense explanation
5. Funding needed and explanation

The company claims to offer an average of 400 leads a month.

"In our administrator dashboard, you will be able to access our proposals database, where leads are displayed in an easy-to-read format. We do not provide historical data. Leads are made available as soon as we receive them and will be archived within a couple of days," said Aaron.

To ensure the quality of the network, for a limited time, USGrants.org is accepting new partners to join their network.
