As per The Business Research Company's "[Oncology Devices Global Market Report 2022](#)", the oncology devices market is expected to grow from \$91.47 billion in 2021 to \$107.81 billion in 2022 at a compound annual growth rate (CAGR) of 17.9%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, a surge in commodity prices, and supply chain disruptions, affecting many markets across the globe. The oncology devices market is expected to grow to \$216.35 billion in 2026 at a CAGR of 19%. A growing number of cancer cases across the globe is

anticipated to boost the demand for the oncology devices market.
