As per The Business Research Company's "Gastrointestinal Devices Global Market Report 2022",

**“** Avail a limited period discount of 33% on our uniquely designed Opportunities and Strategies market research reports. Contact us today and make winning strategies!”

*The Business Research Company*

the gastrointestinal devices market is expected to grow from \$9.35 billion in 2021 to \$10.05 billion in 2022 at a compound annual growth rate (CAGR) of 7.5%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, a surge in commodity prices, and supply chain disruptions, affecting many markets across the globe. The gastrointestinal devices market is expected to grow to \$12.72 billion in 2026 at a CAGR of 6.1%. The increasing prevalence of gastrointestinal diseases contributed to the growth of the gastrointestinal devices market.

## Key Trends In The Gastrointestinal Devices Market

Single-use disposable endcap of duodenoscope is increasingly being used to prevent contamination during endoscopic retrograde cholangiopancreatography (ERCP) procedures.

Single-use disposable cap controls the infection and preserves the duodenoscope optics. The USFDA recommended that hospitals and clinics shift from reusable duodenoscopes to disposable parts duodenoscopes.

### [Overview Of The Gastrointestinal Devices Market](#)

The gastrointestinal devices market consists of sales of gastrointestinal devices and related services by entities (organizations, sole traders, and partnerships) that manufacture gastrointestinal devices. These devices are used for the diagnosis and treatment of medical conditions related to the digestive system or the gastrointestinal tract.
