

24-7 Marketing Launches FastRank™, an SEO & Content Marketing Program to Help SMBs Capture Top Rankings on Google

Small & mid-sized businesses can now effectively compete with large competitors using an affordable SEO program to rank on the first page of search engines.

ROCKAWAY, NEW JERSEY, UNITED STATES, November 2, 2022 /EINPresswire.com/ -- 24-7 Marketing LLC, a New Jersey-based [marketing agency](#), has launched a revolutionary [SEO](#) program to help small & mid-sized companies rapidly dominate rankings on Google, Bing and other search engines.

FastRank is a DFY (Done for You) system that offers massive online exposure on hundreds of high authority websites such as Google News, Yahoo Finance, Associated Press, ABC, CBS, Fox News and NBC. 24-7 Marketing Managing Director, Greg Maka, explains "FastRank enables businesses to compete on an even playing field against larger competitors with organic search rankings instead of paid online ads".

Ranking on page one of Google and other search engines can have a dramatic impact on a company's success since research has shown that over 90% of online searchers never go beyond the front page of search engines. That is an enormous amount of missed leads and sales if your company does not rank on the front page.

There are many reasons that justify why ranking on page one is so important. 24-7 Marketing has listed them at: www.24-7marketing.net/seo/.

One of the key elements of the FastRank program is usage of highly researched DFY content distributed to several hundred, high authority online platforms all linked to a company's website. Online searchers spend 4X more time viewing organic [content marketing](#).

While content marketing is a necessary, valuable tool for any sized business, most company owners find it difficult to allocate the time and resources to write and publish quality content.

Page one rankings organically on the search engines also increases brand recognition, awareness and recall while boosting a business' reputation online. One study reported that leaders in content marketing experience eight times more website traffic than non-leaders.

By combining the power of content marketing with massive online distribution, FastRank has quickly boosted rankings to page one, generated better quality leads and increased sales even in highly competitive niches.

Standard SEO services often take a long time. The FastRank program's multi-channel optimizing system has proven to be dramatically faster since it is placed on a variety of news websites, blogs, videos, and podcasts.

24-7 Marketing LLCTM is a marketing agency with over 30 years experience working with SMBs nearby or virtually. It is located in Rockaway, New Jersey. Visit their website at: www.24-7marketing.net.
