Presently, North America dominates the market, followed by Europe. In 2017, U.S. dominated the North America market and Germany led the overall market in Europe. However, in the Asia-Pacific region, China currently dominates the market.

Rise in demand for passenger vehicles coupled with safety & security concerns among consumers and increase in number of road fatalities drive the growth of the global automotive camera market considerably. In addition, rise in trend of installing advanced driver assistance system (ADAS) and legislations mandating installation of cameras in vehicles are anticipated to provide potential growth opportunities for the market. However, high installation cost of the cameras is one of the major restraints of the market.
