“

These are chants of a nation rejecting single party rulers of the past and present and calling on the free world to support their democratic aspirations.”

On September 16, 2022, a new wave of anti-regime protests broke out in Iran. Into its second month, the continuity of the unrest in over 203 cities and all 31 provinces, key universities, and even high schools is unprecedented. More than 450 people have been killed, including at least 32 children. The message of the protesters to the world is focused on the overthrow of the regime. The most universal slogans are “Death to dictator, death to Khamenei,” and “Death to the oppressor, be it the Shah or the Leader [Khamenei].” These are chants of a

nation rejecting single party rulers of the past and present and calling on the free world to support their democratic aspirations.

Iranian American campaign calls on bipartisan members of Congress to support the people's uprising for democratic Iranian republic and urges Washington to recognize their right to self-defense against unrelenting brutality in accordance with the Universal Declaration of Human Rights.
