As per The Business Research Company's "[Metal Matrix Composite Global Market Report 2022](#)", the MMC market reached a value of nearly \$455.34 million in 2020, having increased at a compound annual growth rate (CAGR) of 6.34% since 2015. The metal matrix composite market is expected to grow from \$455.34 million in 2020 to \$649.33 million in 2025 at a rate of 7.38%. The metal matrix composite market is then expected to grow at a CAGR of 6.87% from 2025 and reach \$905.15 million in 2030. Powder metallurgy is the most widely used technology to manufacture metal matrix composites.

Key Trends In The Metal Matrix Composite Market

Growing technological advancements are shaping the metal matrix composite market. Major institutes and companies are focusing on projects involving advanced composite materials for the automotive and aerospace industries.

[Overview Of The Metal Matrix Composite Market](#)

The metal matrix composite market consists of sales metal matrix composites by entities (organizations, sole traders, and partnerships) that manufacture metal matrix composite materials. Metal matrix composites (MMCs) is a composite material made up of two constituent parts, of which at least one is metal and other material may be a different metal or another material. MMCs are a class of materials (metals, alloys, or intermetallic compounds) that have been reinforced with particles, whiskers, or continuous fibers. MMCs can be excellent substitutes to conventional materials owing to their hardness, specific strengths, and creep resistance.

Metal Matrix Composite Global Market Report 2022 from TBRC covers the following information:

Market Size Data

- Forecast period: Historical and Future
- By region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
- By countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

Market Segmentation

- By Matrix Type- Aluminum MMC, Magnesium MMC, Copper MMC, Super Alloys MMC, Others
- By Production Technology- Liquid Metal Infiltration, Powder Metallurgy, Casting, Deposition Techniques
- By End-Use Industry - Automotive And Transportation, Aerospace And Defense. Electrical And Electronics, Industrial, Others
- By Geography: The global MMC market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, North America holds the largest share in the market.

Major market players such as Materion Corporation, CPS Technologies Corporation, CeramTec, Ferrotec Holdings Corporation, DWA Aluminum Composites USA

Trends, opportunities, strategies and so much more.

Metal Matrix Composite Global Market Report 2022 is one of The Business Research Company's comprehensive reports that provides metal matrix composite market outlook. The market report gives metal matrix composite market analysis, MMC market size, metal matrix composite market growth drivers, metal matrix composite market segmentation, MMC market major players, MMC market growth across geographies, and MMC market competitors' revenues and market

positioning. The metal matrix composite market report enables you to gain insights on opportunities and strategies, as well as identify countries and segments with the highest growth potential.
