Key Trends In The Intermodals Market

Organizations are implementing precision scheduled railroading that is gaining popularity in the intermodal market over recent years. Precision scheduled railroading (PSR) is a plan that includes centralizing operations, reducing staff, running less, heavier, faster trains, and optimizing the network to increase efficiency.

Overview Of The Intermodals Market

The intermodal market consists of sales of intermodal rail freight transportation services and related goods by entities (organizations, sole traders, and partnerships) that provide the transportation of freight in an intermodal container or trailer on a train and the moving of the containers to and from the train onto/from other forms of transport.
