Market Analysis and Dynamics:

Dispensaries and other cannabis retailers can use cannabis retail POS systems to sell their products while staying in compliance with federal and state regulations. Many of the same capabilities as retail POS software are included in these packages, but with additional cannabis-specific functionality. Dispensaries may take payments, handle inventory, and keep proper tax records using cannabis retail POS software. Employees, managers, and owners often use these technologies to accomplish transactions and perform back-office duties.

Integration of various features such as inventory management, CRM, and others, as well as increased awareness of cannabis retail point of sale (POS) software over physical point of sale (POS) systems, are expected to emerge as significant factors driving the cannabis retail point of sale (POS) software market forward. In addition, rising internet penetration and online payment solutions, as well as government financing and support, will bolster the cannabis retail point of sale (POS) software market throughout the projection period.
