

Decision Lens Partners with cBEYONData to Continue Transforming Public Sector Financial Planning

The partnership will see Decision Lens integrated with cBEYONData's CFO Control Tower solution to further assist federal financial management organizations.

ARLINGTON, VIRGINIA, USA, November 10, 2022 /EINPresswire.com/ -- [Decision Lens](#), a leading

“

Assessing the capabilities that CFO Control Tower brings to our platform furthers our mission to help the Department of Defense reform the PPBE process.”

John Saaty, Decision Lens CEO

developer of public sector continuous planning software, has announced a new partnership today with [cBEYONData](#), a purpose-built professional services firm that specializes in supporting federal financial management and budgeting customers.

The partnership will see Decision Lens integrated with cBEYONData's CFO Control Tower solution to further assist federal financial management organizations with their budgeting & reporting needs. Decision Lens capabilities for

business planning, prioritization, and resource allocation, combined with cBEYONData's accounting consolidation and reporting capabilities brings two best-of-breed Software as a Service capabilities under one umbrella for an automated, seamless planning effort.

In an era of constantly constrained budgets and resources, organizations need the tools to prioritize limited funds to meet their mission. The combination of these two solutions will continue to transform and modernize public sector planning and financial management.

cBEYONData Chief Executive Officer Dyson Richards immediately saw the possibilities an integration offered, “As we seek to enhance and automate business processes across federal agencies, we recognized a need for improved decision support throughout the planning process. The integration of Decision Lens will provide a new set of capabilities to enable our customers to make more informed decisions.”

According to John Saaty, Decision Lens CEO “We are excited for more users to gain access to Decision Lens through this partnership. Assessing the capabilities that CFO Control Tower brings to our platform furthers our mission to help the Department of Defense reform the PPBE process.”

Already, our company's development teams are collaborating to deliver a seamless end-user experience. Together these solutions will marry their respective strengths and functionality to enable our collective customers to make data-based and risk informed tradeoff decisions.
