As well as new entrants in the Atherosclerosis Drugs market. It focuses on the recent mergers & acquisitions, joint ventures, collaborations, partnerships, licensing agreements, brand promotions, and product launches, among others.

Some major companies in the global market report include Sanofi, Hoffmann La-Roche Ltd,

Bayer AG, Merck & Co., Inc., Pfizer Inc., Novartis AG, GSK plc, Janssen Global Services, LLC, Amgen Inc., Mylan N.V.

Market Scope:

One of the report's central components is the broad Atherosclerosis Drugs market segmentation that includes the product type gamut, application spectrum, end-user industry landscape, significant geographical regions, and the top market contenders. The report contains unbiased industry expert opinions on the current market scenario, past market performance, production & consumption rates, demand & supply ratio, and revenue generation forecasts over the estimated period. The key players' financial positions, along with their gross profits, sales volumes, sales revenue, manufacturing costs, and other financial ratios, have been accurately gauged in the report.

Reports Highlights:

Statins segment accounted for the largest revenue share in 2021. Lipid-lowering therapy has been the cornerstone of cardiovascular risk reduction and prevention. Statin drugs have been shown to considerably reduce cardiovascular disease morbidity and mortality as well as blood cholesterol levels.

Cholesterol lowering medication segment accounted for the largest revenue share in 2021. The growing use of these medications is anticipated to drive the segment's market revenue growth. The development of fatty deposits in the arteries can be slowed down, stopped, or even reversed by aggressively reducing Low-Density Lipoprotein (LDL), also referred to as the "bad" cholesterol. Statins are frequently employed to lower cholesterol, keep arteries in good condition, and prevent atherosclerosis.

The online pharmacy segment accounted for the largest revenue share in 2021. This market segment is growing owing to an increase in the number of online services available as well as a sharp rise in internet users.
