

See Bassani Medical Turnkey Greenhouse Operation - GreenZone/AEssenseGrows Deliver at Cannabis Expo Johannesburg - 11/18

GreenZone & AEssenseGrows Deliver GMP/GACP Full Service Controlled Environment Greenhouse DPOTT at Cannabis Expo South Africa 2022

JOHANNESBURG, SOUTH AFRICA, November 9, 2022 /EINPresswire.com/ -- [Bassani Medical](#), [AEssenseGrows](#) and [GreenZone](#) announce the turnkey operations for phase 1 of their business relationship with four greenhouses at 800 square meters of canopy. Initial production starts at two metric tons per year ramping to 24 greenhouses and 12 metric tons by the end of their 2023 expansion (3,200 square meters).

AessenseGrows/GreenZone GMP/GACP designs offer Earth Works, Drawings, Construction, Aeroponic Equipment & Lights, Water Treatment Systems, HVAC, Security, and Post-Harvest (Testing, Pack, and Trim).

Bassani Medical is executing on a two-year investment strategy to become a dominant global supplier of premium medical cannabis flower, biomass, and extracts.

"Greenzone delivered our advanced facilities and environmental controls to GMP/GACP standards, and AEssenseGrows provided our state-of-the-art aeroponics engine and advanced training, perfectly on-schedule, on-site, and to plan," said Dr. Renske Snyman, technical &

With existing greenhouse and indoor production customers in South Africa, GreenZone and AEssenseGrows have demonstrated domestic certification and global export deliveries to Europe and Australia. This new series of design combinations are optimized for fast business start-up, proof of results, and learning, to prepare producers for large scale commercial results, to achieve competitive production costs.

“

Greenzone/AEssenseGrows delivered our advanced facilities, aeroponics engine, & environmental controls to GMP/GACP standards, with advanced training, perfectly on-schedule, on-site, and to plan,”

Dr. Renske Snyman, technical & operations director, Bassani Medical

Jaco Lingenfelder, managing director, GreenZone, stated, “We have a proven track record of success with AEssenseGrows precision at South Africa customers and we are excited to optimize our relationship with Bassani Medical to enhance their production beyond world class. The merger of our design, construction, and GMP/GACP expertise with the AEssenseGrows aeroponic system offers superior precision control unmatched in the cannabis space to accelerate our joint customers to dominant

positions in the shortest possible times.”

GreenZone has a demonstrated history as the leading crop management supplier in South Africa. Bringing expertise in GMP and GACP controlled environment agriculture certification, GreenZone understands production design execution from construction through environmental control and shipments. When combined with the AEssenseGrows AEtrium System and expert training, these advanced designs offer precision results with yields, potency, and unmatched profitability.

Michael Jorgensen, Managing Director, EMEA, AEssenseGrows, reflected, "GreenZone has been an exemplary partner with successful projects executed together. Our objective demonstrated here is to offer quick setup to demonstrate evidence while executing on the path to full production, GMP/GACP certification results, and full export."

The AEssenseGrows AEtrium System delivers sensor-driven automation to execute the inherent benefits of aeroponics. The company's Guardian Grow Manager central management software monitors grow conditions 24/7 and, if needed, automatically adjusts key variables such as nutrients, irrigation, pH, temperature, or lighting to maintain optimal conditions.

About Bassani Medical

Bassani Medical is a vertically integrated medical cannabis cultivation and processing company established in South Africa using world-leading automated aeroponic technology. For more information, visit: <https://BassaniMedical.com/>.
