

Saviant and Chester Energy & Policy announce a strategic partnership, to accelerate Digital Transformation initiatives

Together, Saviant and Chester Energy & Policy accelerate digital transformation initiatives across U.S. Utility, Energy & Renewable Industries

ORLANDO, FLORIDA, U.S., November 9, 2022 /EINPresswire.com/ -- Saviant, an intelligent data engineering & systems integration company, announced a strategic partnership with Chester Energy & Policy LLC, a global energy technology & policy consulting services provider, to unlock collaborative expert insights in the rapidly developing worlds of clean energy, power utilities, and sustainable business practices.

Saviant partners with Chester Energy & Policy

“

We're excited to partner with Matt of Chester Energy & Policy, to enable Power & Energy operators to transform their exponentially growing operations data into a value-generating asset.”

Kunal Kerkar

"Through our close partnership with Saviant, Chester Energy & Policy will expand expertise with access to Saviant's industry-leading robust mechanisms & frameworks closing the gap between Physical and Digital, and we're excited to provide advanced insights to our clients. With Saviant, we can assist energy industry organizations with the implementation of effective data management strategies, integrating traditional data models developed at the MES layer with modern Cloud solutions. We believe this will be a significant accelerator for digitalization in the process industry, leading to increased effectiveness of their utility operations," said

Matt Chester, President & CEO of Chester Energy & Policy LLC.

"We're excited to partner with Matt of Chester Energy & Policy, to enable Power & Energy operators to transform their exponentially growing operations data into a value-generating asset

for their people to make faster decisions. Together, Chester Energy & Policy and Saviant will build customized solutions that integrate smart devices, operations, and people in real time. These solutions will empower people with operations data and analytical insights that improve on-stream time, resiliency, sustainability, and profit," said Kunal Kerkar, Director & Global Head - Partnerships & Strategic Alliances of Saviant.

Together, Chester Energy & Policy and Saviant build digital solutions that increase the efficiency and sustainability of industrial operations.

Matt's deep knowledge & subject matter expertise in the U.S. Energy space, including work with U.S. federal energy policy and with an expansive network built as a leading energy and utility consultant on data-centric initiatives, provides the ability to deliver greater value across industrial operations and the customers. Which is coupled with Saviant's Energy data management and analytics platform, helping customers to reach their digital transformation initiatives faster and cost-effectively at a greater scale.
