

ERC is helping SMEs in the USA get valuable tax credits by keeping staff happy

ERC is assisting small and medium-sized enterprises (SMEs) in the US to receive tax credits for keeping their employees on the payroll during the Covid pandemic

UNITED STATES, November 10, 2022

/EINPresswire.com/ -- ERC, which

stands for Employees Retention Credit, is a US-based ERC tax credit specialist service to help small and medium US businesses to receive the employee tax credits. The company offers a 100%

Done-For-You Employee Retention Tax Credit application processing service. Business owners can fill out an online questionnaire with their relevant data and instructions provided by [EmployeesRetention.Credit](#) (ERC), whereas they will provide documents needed for the application process.

EmployeesRetention.Credit (ERC) is an excellent option for business owners who want to take advantage of the payroll tax refund approved by congress. This program is precisely what the government is trying to achieve – incentivizing employers to keep the employees on the payroll during the pandemic. To qualify, companies should meet specific criteria and provide required paperwork. The credit is for companies with up to 500 W2 employees. The calculation is complicated and based on W2 payrolls, health and other benefits provided to employees, full and part time. Companies that received a PPP loan can still qualify. Moreover, the ERC tax credit program is explicitly aimed at smaller businesses in the US. The company takes care of all the tedious paperwork and ensures everything is done correctly according to all IRS regulations.

Consultant and CEO of EmployeesRetention.Credit, [Mr. Tony Goldsmith](#) says: "With our done-for-you ERC service, we can remove the hassle of completing the lengthy and complicated ERC application process. We take care of everything from calculating your employee retention percentage, filling out the necessary paperwork, and submitting it to the IRS."

Mr. Goldsmith also discussed their service charges, a fixed, non-negotiable fee agreed upon before starting the process. He claims that his team provides seamless and fast service and that

clients will receive the maximum tax credit amount as long as the information provided is correct and complete. Refunds are taking 5 - 8 months.

In short, the service offered by EmployeesRetention.Credit lets small and medium-sized enterprises receive a refund through an innovative IRS incentive program. To learn more about the ERC program, please visit <http://employeesretention.credit>
For updates follow [ERC on Facebook](#).
