

Pressure Sensor Market Leading Players, Demand, Future Trends, Growth Factor, Strategy, Price and Gross Margin till 2030

Growing adoption of pressure sensor in portable healthcare wearables is a key factor driving pressure sensor market growth

VANCOUVER, BC, CANADA, November 9, 2022 /EINPresswire.com/ -- The global [pressure sensor market](#) size was USD 14.56 Billion in 2021 and is expected to register a revenue CAGR of 7.9% during the forecast period, according to latest analysis by Emergen Research. Rising adoption of pressure sensors in portable healthcare wearables is the key factor driving market revenue growth.

Flexible sensing technologies and wearable pressure sensors are utilized for long-term and real-time cardiovascular monitoring. Physiological pulse waveforms can be precisely and constantly

tracked by flexible pressure sensors for wearable health monitoring due to attractive qualities such as wearing comfort, lightweight, and high sensitivity, to pulse pressures. Rising adoption of pressure sensors in healthcare wearables prompted manufacturers to introduce advanced pressure sensor technologies in the market.

“

Pressure Sensor Market Size – USD 14.56 Billion in 2021, Market Growth – at a CAGR of 7.9%, Market Trends – Increasing adoption of pressure sensors in consumer electronics”

Emergen Research

For example, Stanford University researchers created a wearable, flexible, high-sensitivity pressure sensor that can offer data on cardiovascular health, emotional state, and

other elements of human physiology. The ultra-thin sensor, which is attached-like a medical bandage, analyses pulse waveforms over arteries or veins with remarkable repeatability. In June 2022, Huawei Technologies, a Chinese multinational technology corporation introduced four new

health wearables in the market. These include a high-resolution pressure sensor that improves measurement accuracy, allowing users to check their blood pressure at any time.

Pressure Sensor business analysis covers techniques of key players including comprehensive information on key business developments, Company Overview, Financial Highlights, Product Portfolio, SWOT Analysis, Key Strategies, and Developments.

Pressure Sensor Market Main competitors are:

Emerson Electric Co., Honeywell International Inc., Sensata Technologies, Inc., Micro Sensor Co., Ltd., BD SENSORS GmbH, City Technology Limited, ABB Ltd., Siemens AG., Membrapor AG., Quartzdyne, Inc., Renesas Electronics Corporation, and Texas Instruments Incorporated

Some Key Highlights from the Report

The electromagnetic segment revenue is expected to increase at a significantly fast rate over the forecast period. This is due to growing use of electromagnetic pressure sensor in electrical applications owing to its low cost, suitability, and high efficiency, which is also used in harsh environments. In June 2022, Baumer hhs GmbH, a Germany-based engineering company announced to launch a modular glueing system for corrugated converters with an adhesive detection sensor. It also has an electromagnetic drive with a 42% high closing force.

The industrial segment is expected to register a steady revenue growth rate over the forecast period due to growing adoption of pressure sensors in various industrial applications. Oil-free designs, high-proof pressure ratings, better accuracy, and higher resolution are all advantages of a pressure sensor utilized in industrial applications.

The Asia Pacific market accounted for largest revenue share in the global pressure sensor market in 2021. This is due to growing adoption of pressure sensors in consumer electronics and automotive in countries across the region, especially in China, Japan, and India. China is one of the largest automotive manufacturing countries in the world. According to China Association of Automobile Manufacturers (CAAM), total automotive sales in China is expected to reach 27.5 million units for 2022.

Emergen Research has segmented the global pressure sensor market based on sensor type, technology, product, application, and region:

Sensor type (Revenue, USD Billion; 2019-2030)

Wireless Sensors

Wired Sensors

Technology Outlook (Revenue, USD Billion; 2019-2030)

Capacitive

Electromagnetic

Piezoresistive

Resonant Solid-State

Optical

Others

Product Outlook (Revenue, USD Billion; 2019-2030)

Absolute Pressure Sensors

Differential Pressure Sensors

Vacuum Pressure Sensors

Sealed Pressure Sensors

Gauge Pressure Sensors

Others

Application Outlook (Revenue, USD Billion; 2019-2030)

Consumer Electronics

Automotive

Medical

Oil & Gas

Industrial

Utilities

Aviation

Others

The Company that provides Pressure Sensor market overviews, analyzes and forecasts market size and growth for the Pressure Sensor global market, Pressure Sensor market share, Pressure Sensor market segments and geographies, Pressure Sensor global market players, Pressure Sensor global market leading competitor revenues, profiles and market shares. The Pressure Sensor global market report identifies top countries and segments for opportunities and strategies based on market trends and key competitors' approaches.

You need to discover how this will impact the Pressure Sensor market today, and over the next 10 years:

- Our 250-page report provides 194 tables and 189 charts/graphs exclusively to you.
- The report highlights key lucrative areas in the industry so you can target them – Now.
- It contains in-depth analysis of global, regional and national sales and growth.
- It highlights for you the key successful trends, changes and revenue projections made by your competitors.

This report tells you Today how the Pressure Sensor market will develop in the next 10 years, and in line with the variations in COVID-19 economic recession and bounce. This market is more critical now than at any point over the last 10 years.

Forecasts to 2030 and other analyses reveal commercial prospects

- In addition to revenue forecasting to 2030, our new study provides you with recent results, growth rates, and market shares.
- You will find original analyses, with business outlooks and developments.

- Discover qualitative analyses (including market dynamics, drivers, opportunities, restraints and challenges), cost structure, impact of rising Pressure Sensor prices and recent developments.

This report includes data analysis and invaluable insight into how COVID-19 will affect the industry and your company. Four COVID-19 recovery patterns and their impact, namely, "V", "L", "W" and "U" are discussed in this report.

About Us:

Emergen Research is a market research and consulting company that provides syndicated research reports, customized research reports, and consulting services. Our solutions purely focus on your purpose to locate, target, and analyse consumer behavior shifts across demographics, across industries, and help clients make smarter business decisions. We offer market intelligence studies ensuring relevant and fact-based research across multiple industries, including Healthcare, Touch Points, Chemicals, Types, and Energy. We consistently update our research offerings to ensure our clients are aware of the latest trends existent in the market. Emergen Research has a strong base of experienced analysts from varied areas of expertise. Our industry experience and ability to develop a concrete solution to any research problems provides our clients with the ability to secure an edge over their respective competitors.
