

Niagara Falls Adventures Launches Illumination Tours

Experience the beauty of illuminated Niagara Falls

NIAGARA FALLS, NY, USA, November 9, 2022 /EINPresswire.com/ -- This winter, Niagara Falls will have 40 nights of fireworks, as well as the Falls being lit up every night. Hundreds of LED lights are housed in three locations across the Niagara Gorge in Niagara Falls. These lights create a breathtaking view that everyone should experience at least once. With the relatively new, energy-efficient LED technology, they provide more than twice the previous lighting levels.

niagara falls adventures logo

"I think the two most underrated views would be seeing Niagara Falls in the winter, and the illumination during the fireworks at night. We've created an opportunity for people to see them both while learning about the history of Niagara Falls," said CEO Nick Hurd of Niagara Falls Adventures.

“

I think the two most underrated views would be seeing Niagara Falls in the winter, and the illumination during the fireworks at night."

Nick Hurd, CEO of Niagara Falls Adventures

Niagara Falls Adventures offers a rich, guided history tour with one of their expert tour guides who will lead you through Goat Island to experience the illuminated Falls. These programmable lights feature color palettes and movements inspired by nature. The mighty American and Canadian Horseshoe Falls will come alive with this tribute to the natural beauty that surrounds the park, with a wider spectrum of color than ever before.

About Niagara Falls Adventures
