

# ScanMyPhotos.com: How to get digital copies from 35mm slide carousels

*A digital innovation breakthrough from the company that pioneered high-volume photo scanning to scan and upload slides to photo-sharing apps*

IRVINE, CALIFORNIA, UNITED STATES, November 9, 2022 /EINPresswire.com/ -- Remember those yellow boxes of 35mm analog slide carousels? That vault of family nostalgia is being revisited for the first time in decades and just in time for the holiday family gatherings.

How to get digital copies from photographs, slides, negatives and home movie film

[ScanMyPhotos.com](https://www.scanmyphotos.com), which preserved more than one billion pictures since 1990 and invented the bulk high-speed photo scanning category, announces another digital innovation today. This time it is for bulk 35mm slide carousel scanning to solve another pre-digital photography challenge.

ScanMyPhotos solved the most significant challenge of economically and quickly digitizing long-forgotten boxes of KODAK® 35mm slide carousels."

*Mitch Goldstone, CEO,  
ScanMYPhotos.com*

As business is about solving problems, the hunt to rediscover family history led to a new way to affordably get digital copies from analog 35mm slide carousels. ScanMyPhotos announces the solution by digitizing up to 140 slides per carousel starting at \$40, plus popular add-on extra services at discounted prices to enhance archival experience.

According to Mitch Goldstone, CEO at ScanMyPhotos.com, the top question asked by photo archivists is how to post online digital copies from 35mm slide carousels. Goldstone said, "Until now, primarily smartphone pictures were uploaded to post on all the photo-sharing apps. Missing were those vaults of decades-past photo memories stored in boxes of 35mm slide carousels--not viewed since first developed.

ScanMyPhotos solved the most significant challenge of economically and quickly digitizing long-forgotten boxes of KODAK® 35mm slide carousels. Scanning each carousel (any quantity, up to 140 standard 35mm mounted slides) starts at just forty dollars.

## QUICK READ:

Remember those travel, family gatherings, and events locked away in slide carousels? \$40 flat fee to scan an entire KODAK® slide carousel at 4,000 dpi (JPEG files) high-resolution digital files.

Popular add-on extras, including express ScanFast same-day scanning and instant uploading. Now available to order online at ScanMyPhotos.com.
