

# World Council of Optometry Dry Eye Disease Education Initiative Website Now Available

*WCO and Alcon Resource Features On-Demand Webinars, In-Practice Tools and Resources, and Faculty Insights*

ST. LOUIS, MISSOURI, UNITED STATES, November 9, 2022 /EINPresswire.com/ -- The [World Council of Optometry](#) (WCO) and [Alcon](#) have launched an online resource in support of their global, evidence-based dry eye disease education initiative. The website, [dryeye.worldcouncilofoptometry.info](http://dryeye.worldcouncilofoptometry.info), features on-demand webinars presented by world-renowned faculty, in-practice tools including clinical studies and white papers, and other professional development resources.

World Council of Optometry President-elect Dr. Sandra Block said, "Our new website presents the latest dry eye disease data and science to the entire optometric community through trusted information and tools. Of value no matter the size of your practice or the length of your experience, these resources offer practical measures to help improve patients' quality of life."

The first on-demand Dry Eye Spotlight webinar, "Dry Eye Disease Mitigation," is now available on the website, following its debut yesterday. Presented by Professors Jennifer Craig, Lyndon Jones, and James Wolffsohn, the lively discussion focuses on understanding the prevalence and etiology of dry eye, associated risk

The screenshot shows the website's header with the Alcon logo in large blue letters. Below it is the WCO logo, which is a stylized eye with a globe as the iris. The text "WORLD COUNCIL OF OPTOMETRY" is displayed in large, bold, black letters. Underneath, "World Council of Optometry" is written in a smaller font. A navigation bar contains links for "WEBINARS", "TOOLS & RESOURCES", "FACULTY", and "BLOG", along with the website URL "worldcouncilofoptometry.info". The main content area features a close-up image of a human eye. A white callout box with blue text says "AVAILABLE NOW Full Dry Eye Disease Mitigation Webinar On-demand replay with Q&A from the live broadcast". Below this, a quote states: "Dry eye disease is a chronic, painful condition. 1.4 billion people worldwide suffer from dry eye symptoms.\*". A smaller text block explains that the initiative, in partnership with Alcon, aims to deliver practical, evidence-based information to help optometrists assist their patients. The bottom of the page features the text "WCO Dry Eye Disease Education Initiative Website" and a partial image of a woman wearing glasses.

factors, and how to triage patients presenting with symptoms.

Registration for future live chat-enabled Dry Eye Spotlight webinars will open in the weeks before the debut of each. These include “Dry Eye Disease Measurement” on January 17, 2023, “Dry Eye Disease Management” on March 8, 2023, and the “Dry Eye Disease Wheel Tool” on May 16, 2023. On-demand versions then become active the following day.

In-practice tools available on the website include articles, reports, and clinical studies that explore the three main pillars of dry eye disease mitigation, measurement, and management. This collection of practical tools will be updated regularly.

A featured blog from the initiative’s faculty members and guest bloggers will present their latest observations to participants.

WCO and Alcon partnered to develop the dry eye disease education initiative to raise optometrists’ understanding of dry eye disease and deliver resources on practical management. Dry eye disease is a chronic condition and can be quite painful. Approximately 1.4 billion people are affected by dry eye symptoms worldwide, with reports of increased occurrence aligning with notable factors such as increasing use of technology, environmental triggers, and an aging population.

#### About the World Council of Optometry

The World Council of Optometry (WCO) is an international membership-based non-profit organization for individual optometrists, industry professionals and optometric organizations that envisions a world where optometry makes high quality eye health and vision care accessible to all people. Its mission is to facilitate the development of optometry around the world and support optometrists in promoting eye health and vision care as a human right through advocacy, education, policy development and humanitarian outreach. To learn more, please visit [www.worldcouncilofoptometry.info](http://www.worldcouncilofoptometry.info) or follow us on LinkedIn, Facebook, Twitter and Instagram.

#### About Alcon
