

# Highlights from the Construction Links Network platform this week - November 10, 2022

*The only peer-to-peer content sharing platform for the construction, building and design community*

SUNDRE, ALBERTA, CANADA,  
November 10, 2022 /

EINPresswire.com/ -- [Construction Links Network](#) is a unique news platform where members "Get More Eyes" on their digital content and increasing their SEO.

The network includes thousands of Canadian construction managers, contractors, developers, building managers, property managers, architects, designers, engineers, government officials and more. Members use this platform to share and onboard their digital content on the Internet, through social media and our popular e-Newsletters. Ideal for product / service releases, company announcements, blogs, podcasts, webinars, case studies, videos and more.

Top news this edition has Statistics Canada reporting that September building permits saw the largest recorded monthly decline ever. Both the residential and the non-residential sector posted declines. The total value of building permits in the third quarter of decreased 6.3% to \$33.7 billion after three consecutive quarterly increases.

The top video is courtesy of LNG Canada who give us their Fall 2022 update highlighting their 3,400 on site workers who have entered the above-ground construction phase. The tank, cooling towers and trestle are moving towards completion by the end of the year. After receiving the occupancy permit, the first group was also able to move into the main admin building.
