

Mills Entertainment and A+E Networks Partner To Bring The HISTORY Channel's Ancient Aliens To Live US Audiences

Ancient Aliens LIVE : Project Earth Features Stars from The HISTORY® Channel's Hit Series in a LIVE Interactive Event

NEW YORK, NY, USA, November 10, 2022 /EINPresswire.com/ -- The HISTORY® Channel, a division of A+E Networks, and Mills Entertainment, leading producer of branded live entertainment, announced today new dates for the U.S. Tour of Ancient Aliens LIVE: Project Earth, a live, in-person event celebrating the network's long-running program Ancient Aliens.

Following a successful round of shows in Spring 2022, seventeen live events have been scheduled for 2022 and 2023, bringing to local audiences an interactive, experiential extension of Ancient Aliens that explores the theory that extraterrestrials have visited Earth for millions of years. Ancient Aliens LIVE: Project Earth brings the same curiosity and in-depth examination to the questions, speculations, provocative controversies, first-hand accounts, and grounded theories surrounding this age-old debate.

This is the second collaboration for the two companies, and follows the record-breaking success of Bring It Live!, a four-year touring collaboration that brought the stars of Lifetime's hit series Bring It to over 100 cities.

"We are thrilled to once again collaborate with our trusted partners at A+E Networks to bring this exciting and thought-provoking franchise to the stage. Throughout the years, our company has had the privilege of connecting fans around the world with beloved artists and brands in a live, interactive environment—we are grateful for this opportunity now more than ever!" shares Simone Gianfrancesco, SVP of Mills Entertainment.

Nick Pope, Dr. Travis Taylor, William Henry, David Childress and Giorgio Tsoukalos discuss extraterrestrial theories in Ancient Aliens Live.

The ninety-minute experience features leading Ancient Astronaut theorist Giorgio A. Tsoukalos, investigative mythologist William Henry, aerospace engineer and Astrophysicist Dr. Travis Taylor, UK government UFO investigator Nick Pope, and real-life Indiana Jones, David Childress, as they discuss thought-provoking extraterrestrial theories on fan-favorite topics from Ancient Egypt to the moon, paving the long road to Disclosure.

In addition to engaging panel discussions and an audience Q&A, the event will also offer attendees the opportunity for a VIP meet and greet with the stars, and exclusive Ancient Aliens LIVE: Project Earth merchandise.

The tour is scheduled to visit the following markets:

November 17, 2022 Buffalo, NY Shea's Performing Arts Center

November 18, 2022 Syracuse, NY OnCenter Crouse Hinds Theater

November 19, 2022 Lynn, MA Lynn Memorial Auditorium
