

GLOBAL ACCESS TO THE ALGAE BIOFUEL BOOM (\$FIX)

With a secure public blockchain, anyone can benefit from the algae biofuel boom.

SINGAPORE, November 11, 2022
/EINPresswire.com/ -- 1 \$FIX = 1 metric ton (MT) of Crude Algae Oil (CAO).

\$FIX is the world's first and only tradable utility token/instrument and base price of CAO.

CAO has gained >70% at the all-time high this year and >35% YTD as of 1 Nov 2022.

\$FIX is the market capitalization base value of the CAO industry, making it the #1 ESG crypto partnering with the #1 CAO producer (Regaia Energy, Singapore, owning [A-MAP technology](#) representing Next Generation Oil with Boustead, KLSE: BSTEAD as a key investor), that permanently records the CAO price. \$FIX has a maximum of 50 million supply serving 50 million traders based on ad analytics.

\$FIX provides the lowest fees; a minimum purchase of 0.01 \$FIX; instant settlement; and automated trading bots, enhancing productivity and efficiencies in the supply chain and trade finance of the CAO industry.

From 31-Mar-2022, CAO prices are recorded permanently on a secure public blockchain, a crypto-verified ledger and base price for \$FIX and market cap or value (MV) benchmark ([Algae market potentially worth \\$320 billion, Bloomberg](#)).
