Segmental Analysis:

1. cloud based software are analyzed to witness major growth in the global chiropractic software market over the forecast period 2021-2026 at 7.9% CAGR. Cloud based chiropractic software act as a better alternative for those chiropractic offices relying on in-house servers which takes comparatively more time for restoring, thus creating risks as the stored patient data can be permanently lost at times.

2. The chiropractic software market has been bifurcated under Small Individual practitioners & Mid-sized practitioners as well as Large practitioners. Large practitioners are analyzed to have a major share in the global chiropractic software market in 2020 at 48.2%.

3. North America is anticipated to witness a significant growth in the global chiropractic software market during 2021-2026 at 6.6% CAGR. Government initiatives, supporting rise of personalized medicine as well as growth of improving healthcare facilities can be considered as some of the major factors driving the need for chiropractic softwares in the region.

Competitive Landscape:

The top 5 players in the Chiropractic Software industry are -

1. MacPractice
2. Nuesoft Technologies Inc.
3. Atlas Chiropractic Software
4. Genesis Chiropractic Software
5. DrChrono
